

# The Status is Not Quo! JSR-286 and Rice

Leo Przybylski

## Abstract

JSR-286 is the 2.0 portlet specification. This is a walkthrough of implementing web services as a portlet.

## 1 Objectives

- Developers will see what goes into producing a portlet implementation
- Developers will learn/understand how to create a web services client in java to communicate with Kuali Rice
- Developers will learn how to deploy a portlet to a portlet container

## 2 Audience

Technical track for

- developers
